Broadhempston Village Primary School

To ensure our communication with you is easy, quick and efficient we use an app service.

Our Schools App is a personalised app for our school and allows us to keep everyone updated with school information, news, calendar events and contact information.

If you have a smartphone (Android or I phone) you can download Our Schools App from Google Play Android or the Apple Store for Free. Access is also available on a tablet and IPad by following the same download process.

When we update Our Schools App with new information or news about our school, a push message notification will automatically be sent to your device to inform you of this update. You can then view the notification which will take you directly to our app.

Instructions for download are as follows –

Using your device visit the relevant marketplace for your product

1. Search for Our Schools App and download the app
2. Once downloaded, use the search bar within the app to enter the postcode or the name of the school
3. Hit the search button
4. Once you see the school name displayed, just touch the screen on the school name
5. Confirm your choice by pressing ok
6. You will now be presented with the correct app for your chosen school which contains news, information, calendar events, contacts and any other relevant details.

If you do not have a smart phone you can still view the app and the information online at www.OurSchoolsApp.com

If you have any problems with this system please contact the school office.
